

4 June 1962

MEMORANDUM FOR THE RECORD

1. General Carter called Senator Hayden today informing him that Congressman Cannon called stating the Committee cleared Agency appropriations as originally submitted. Senator Hayden replied that he knew there had been some question earlier that day on where Agency funds are hidden in the overall budget but that Secretary McNamara had come over and resolved this.

2. General Carter also called Senator Russell this date to discuss the above with him and to determine any additional information or presentation required. Senator Russell replied that he was under the impression that this bill had been passed some three months ago, and that he had earlier in the day discussed this matter with Senators Saltonstall and Robinson and felt there was no problem.
